### Control Arm Compatibility with Aftermarket Struts and Shocks

**Q1: I would like to use an SPC adjustable control arm, will this arm work with aftermarket strut/spring setups?**

**A1:** As long as the stock control arm fits around the strut assembly, the SPC control arm will also fit.

**Q2: What should I do if the parts are not compatible?**

**A2:** The more modifications that are done on a vehicle the more likely you are to run into compatibility issues such as fitment and clearance. Educated decisions will need to be made on which parts will work and which ones won't. Sometimes it's just a matter of trial and error. It is ultimately up to the consumer as to the proper fitment of aftermarket parts.
